Notice Expires: Ongoing

All Mariners,

Re: Rampion Offshore Wind Farm – Backfilling of West Export flotation pits

The dredge vessel Costa Verde will be backfilling flotation pits 2 & 3 on the inshore west export cable. Operations are planned to start on the 04/12/17 and should take approximately 5 days weather permitting.

The vessel will be navigating along the export cable corridor and collecting the spoil NW of the OSP and depositing back into the inshore pits.

Spoil location 50° 41.84'N 0° 16.41'W

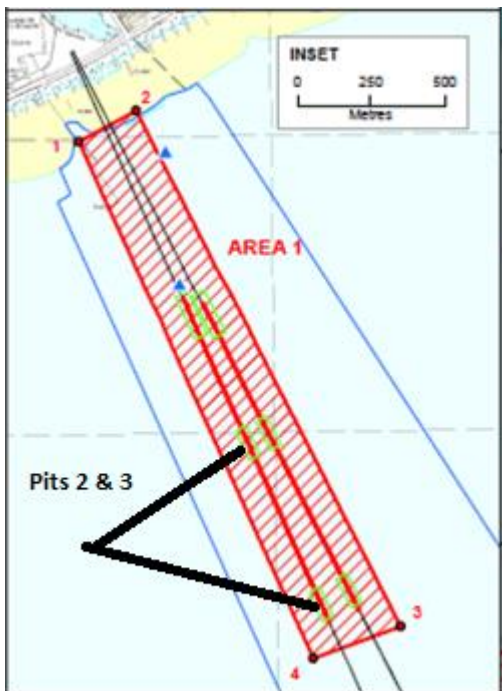

Costa Verde
Call sign- EARD
MMSI-224255000
Length-88
Beam-16
Draught-3.0

Actions

The vessel will be restricted in manoeuvrability during operations. All other vessels are requested to remain a minimum safe distance of 500m from the vessel at all times.

All mariners should be aware that High Speed project vessels (crew transfer vessels) are operating between the ports of Brighton, Shoreham, predominantly Newhaven and the wind farm.

AREA	LABEL	WGS 1984 (DECIMAL MINUTES)	
		LONGITUDE	LATITUDE
