

# Notice to Mariners

## Rampion Offshore Wind Farm

Date of Issue: 05/12/2017

Notice Expires: Ongoing

Dear Authorities, Owners, Ships Agents, Masters, Pilots and Fishermen,

### **Re: Rampion Offshore Wind Farm - Dive operations from MPI Discovery at Offshore Sub Station**

Dive operations are planned in the next week weather permitting on the Rampion Fibre Optic cable using the MPI Discovery as a dive platform at the Offshore Sub Station. Operations are due to be completed in 5 days.

The decompression chamber will be located on the MPI Discovery.

The guard vessel George Johannes will be issuing a securité on VHF CH16 when divers are in the water and will standby in close proximity.

Mariners are advised to give the vessel a wide berth as she is anchored to the sea bed and unable to manoeuvre whilst carrying out these operations.

MPI Discovery

Draught: 5.9m

Length x Breadth: 138m x 40m

Gross Tonnage: 19533

Speed recorded (Max / Average): 8.4/6.9kts

Call Sign: PCFF

MMSI: 246741000

Flag: Netherlands (NL)
