

NOTICE TO MARINERS

Project: Area of Search for potential Rampion 2 OWF Development

Client: RWE Renewables UK Ltd

Survey Period: July – August 2020

Scope of Work: Mariners are advised that the survey vessel, *MV Titan Discovery*, will be conducting early stage nearshore geophysical surveys within the Export Cable corridor of search identified for a potential Rampion 2 OWF development, off the coast of Sussex.

The *MV Titan Discovery* is tasked with collecting data from the shore to the hand over location with the offshore vessel (*MV Vigilant*).

Please see the survey area overview map in Figure 1 below.

The *MV Titan Discovery* will be displaying the relevant IRPCS day shapes and night lights for vessels restricted in their ability to manoeuvre. *MV Titan Discovery* will be operating vessel mounted and towed survey gear (Up to 100m behind the vessel) and a safe operating distance is always requested around the vessel.

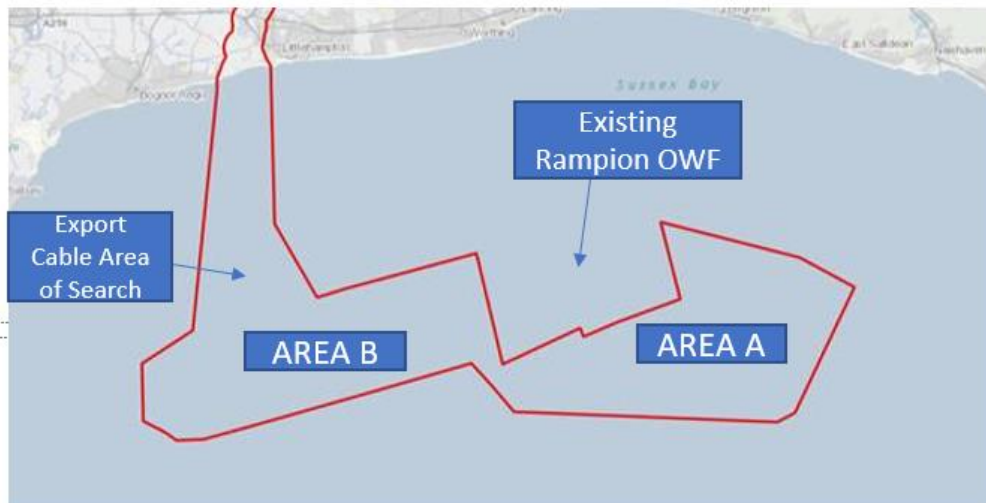

Figure 1 Overview of Survey Areas

Rampion 2 OWF Development is being explored within an area of search adjacent to the existing Rampion Offshore Wind Farm, divided for the operations into three areas.

The *MV Titan Discovery* will conduct operations in the nearshore section of the “Export Cable Area of Search” This will include working up to the shore between Littlehampton and Bognor Regis.
