

How to make paper planes

What you'll need:

A4 sheets of paper, colouring pens, stickers, anything else you want to decorate your planes with!

Method:

We have 2 easy designs for you to try, they both fly really well!

1. 'The traditional paper plane'

Steps:

- Fold the sheet lengthways
- Unfold the sheet, then fold the top corners in

- Fold the same corners in again

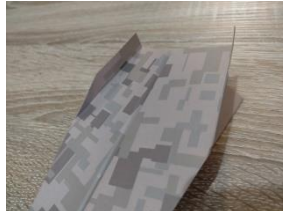

- Turn the plane over, fold in half

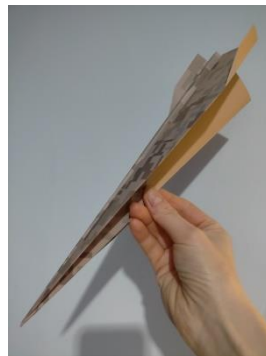

- Fold the wing down, do the same on the other side so you end up with something like this

- optional: you can fold the ends of the wings up like this:

Your plane is ready

2. 'The bomber plane'

Steps:

- Fold the sheet lengthways and then unfold so you have a crease
- Fold the top left corner all the way down

- Fold the left corner up

- Fold the tip towards the centre of the plane and then fold the plane in half

- Fold the wings down on both sides, then fold the ends of the wings up

Your planes are ready and can be tested in the air!

Why not decorate the planes with some stickers?
