

# Spring birds

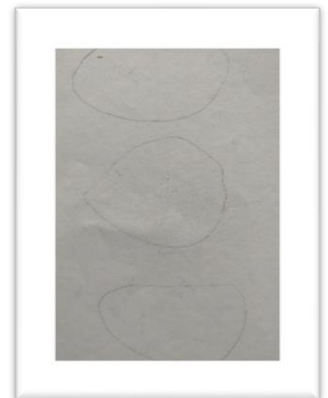

## What you'll need:

- Pieces of colour or white paper, old magazines
- Any other bits and pieces of colourful craft materials that you can find e.g. feathers, ribbon, tissue paper
- Sellotape, glue
- Scissors
- Pencil

## Method:

First, draw the shapes of your birds on the paper you have picked, cut out along the lines you drew; you now have the bird bodies ready for decorating.

Cut out beaks and glue them on, you can cut out wings or decorate the birds with anything else you like, draw eyes or use buttons.

Here are some examples of what you can do:

You could even give them little legs by taping tiny sticks to the back of the birds, like this:

*There aren't any rules with this, you can be as creative as you like! Use your imagination!*
