#summerofchange

Who are we?

#Leavenotracebrighton is a community initiated, pro-active environmental campaign to raise awareness and promote responsible rubbish disposal on Brighton's beaches and green spaces.

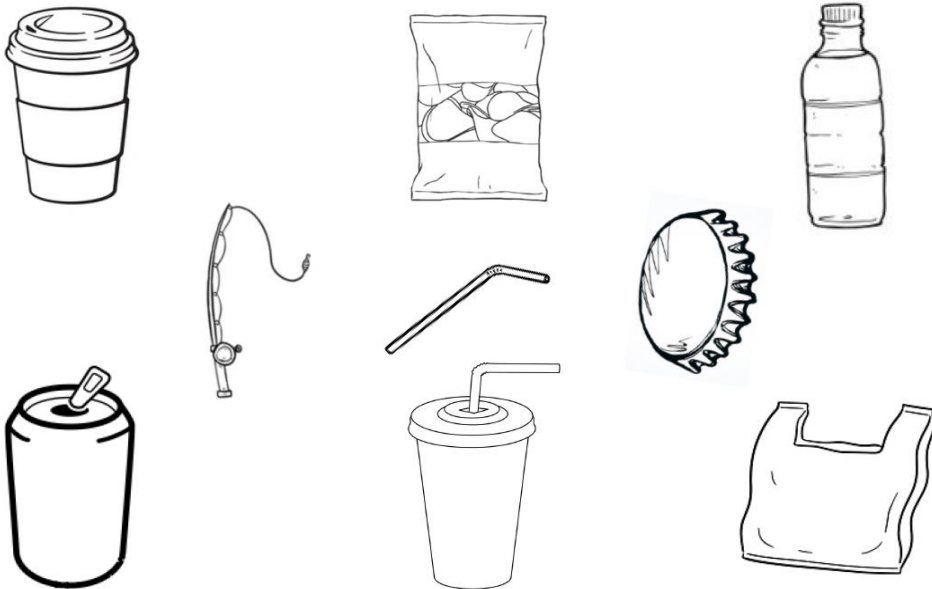

Do you love the beach?

You can do your bit by spotting and *safely taking 3 pieces of rubbish from the beach, with our adopted #take3forthesea initiative.

Why not post a picture on social media and tag us in @leavenotracebrighton, so we can audit what rubbish you've collected to help implement change. Follow us on instagram to see the results of everyone's hard work!

Thank you for taking action for your local environment.

What shouldn't be on the beach? Can you take 3 for the sea?

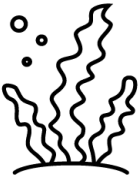

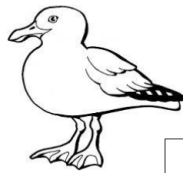

*Please only take items if you can do so safely and without causing personal injury, avoid broken glass or sharp objects

What can you spot on the beach?

Our beach is a wonderful place! If you sit on the beach for a while and look around, you'll be amazed by all the different things that you can see and hear.

Why don't you give it a try and see if you can spot 3 at the sea using our sheet below?
